

SAVE our **PENSION** \$

2020

Democratic congressional leaders are working now on the next emergency legislation to deal with the catastrophic economic impact of the COVID-19 pandemic.

House Speaker Pelosi and Senate Democratic Leader Schumer are fully supportive of labor's call for including multiemployer pension relief as a top priority in the next round of stimulus and recovery legislation. Labor had fought to include multiemployer pension relief in the most recent stimulus legislation, but Senate Republican Leader McConnell blocked it.

Now is the time for Senators across the country to hear from our members and retirees that they must take action to Save Our Pensions.

**Call your Senators today and tell them to
include multiemployer pension relief in the
next stimulus and recovery legislation:**
